

**PUB, Singapore's national water agency, is glad to announce our participation at WEFTEC 2011, from 15 October to 19 October 2011!**

Join PUB and the Singapore Economic Development Board (EDB) in a focused discussion on the benefits of leveraging on R&D for practical water solutions and how your company can benefit from business opportunities in the exciting Singapore water eco-system!

Our discussion topics include:

1. **A Global Hydrohub:** Attractive schemes and opportunities for water-related companies to set up operations and R&D bases in Singapore
2. **A Global Platform for Water Solutions:** How you can benefit from participating in the Singapore International Water Week
3. **Water Innovations:** Showcasing ready-for-market water innovations developed in Singapore (*see videos below from Professor Thomas Gong, Founder, Fluigen, & Dr Adrian Yeo, Founder, MINT*)

Moderated by **Professor Perry McCarty**, Professor Emeritus of Civil and Environmental Engineering, Stanford University, United States of America, the session will also feature senior personnel from PUB, EDB and technology pioneers Dr Adrian Yeo and Professor Thomas Gong.

Attend this session to discover innovations in water technologies and the opportunities that await you in Singapore and the Singapore International Water Week!

For more information on the session, contact Shengwei at [yeo\\_sheng\\_wei@pub.gov.sg](mailto:yeo_sheng_wei@pub.gov.sg).
