

Contracted Company	Booth Number	Product Image	Item Name	Product Description	First Launched SIWW?
ADZAAN CONSULTING PTE LTD	B2-F32		ADZAAN VibroLyser	ADZAAN VibroLyser is an application software that turns a smartphone into a vibration diagnostic tool. Unlike monitoring apps, we have included Compliance Check and Data Analysis functions (Pro version) which can be customized to the individual customer	Yes
AKZO NOBEL	B2-V07		Intercrete	Sustainable Advanced Cementitious Coatings Intercrete is a VOC free, water based technology designed for protection and long term durability of reinforced concrete structures, manufactured at our zero emission plant in Leyland, England. □	No
AMIAD FILTRATION SYSTEMS	B2-J26		AMIAD Mini Sigma	The Mini Sigma is an innovative automatic self cleaning filter, lightweight and durable with maximum installation flexibility. Each filter can take up to a maximum 80 cum/h and down to 80 micron. The Mini Sigma comes with the innovative ADI-P controller	Yes
ARCADIS	L1-N28		Arcadis Drone Service	Arcadis will be launching its Drone Service in Singapore at SIWW. Our drones are industrial-grade and will initially be used for aerial inspections and data collection, they are capable of working in high-risk locations and on large-scale projects.	Yes
Arvia Technology	B2-T30		Nyex Treatment System	Arvia's Nyex™ Treatment Systems combine adsorption with electrochemical oxidation in a single, scalable unit. The process offers a solution for the reduction of trace hard-to-treat organics (COD), micropollutants/contaminants of emerging concern (CECs) an	Yes
ATG UV Technology	B2-T30		atg UV Technology WF (Wafer) Series, Compact UV system range.	atg UV Technology 'WF' Medium pressure 12 model WAFER range ultra-compact UV disinfection footprint for Drinking Water, O&G, Aquaculture & Beverage markets. Easy Install or retrofit & around 1/3 size of comparative systems.	No
AVISTA TECHNOLOGIES	B2-Q25		Chromatic Elemental Imaging	The Avista® Technologies Chromatic Elemental Imaging (CEI) is an extremely accurate, high resolution, membrane autopsy technology used as a troubleshooting tool to determine the primary membrane or ultrafiltration element foulants, and proper chemistry.	No
BUCKMAN LABORATORIES (ASIA) PTE LTD	B2-J22		ECHOWISE™	ECHOWISE™ is a gamechanger. Get Buckman's exclusive non-invasive technology to help improve your process control. ECHOWISE is a smart solution that gives manufacturers advanced process control and accurate, reliable entrained air data.	Yes

CAMBI GROUP AS	B2-D02		CambiTHP®	Cambi's patented Thermal Hydrolysis Process (CambiTHP®) is a proven and reliable technology that has been used around the world since 1995. CambiTHP® has been implemented in existing and "green field" projects designed to reduce disposal quantities	Yes
Danfoss A/S, Danfoss High Pressure Pumps	L1-L30		iSave 21 Plus	Danfoss has launched a new generation of the popular iSave 21 ERD. Improved reliability, design flexibility and high efficiency are some of the features of the new iSave 21 Plus. iSave 21 Plus is a powerful ERD for smaller plants.	No
DIEHL METERING	L1-Q30		HYDRUS 2.0 – the new generation of ultrasonic water meters	HYDRUS 2.0 is ready for any challenge. Revolutionary ultrasonic technology carries out precise measurements with long-term stability for lowest & highest flow rates. Robust construction, self-cleaning transducers & fully potted electronics protect against.	Yes
DNR PROCESS SOLUTIONS PTE LTD	B2-L40		SMART WATER SOLUTIONS	Digitized Operations, Maintenance, Asset Management & Industrial Cybersecurity Seamlessly Integrated with Plant Controls & Scada Systems	Yes

DRAEGER	B2-E11		Portable Multi-Gas Detector Dräger X-am 8000	X-am 8000 is an innovative, versatile multigas detector for measurement up to 7 toxic or flammable gasses, vapours and oxygen simultaneously, either in pump or diffusion mode. With CSE Connect App, it offers a digitalised confined space approval process tha	Yes
FINETEK	B2-K40		EPD Series Electromagnetic Flowmeter EPD Series Electromagnetic Flowmeter	The very FIRST Electromagnetic flow meter to be certified by OIML in Asia! <input type="checkbox"/> <input type="checkbox"/> EPD electromagnetic flow meter is a high-accuracy flow meter with a wide measurement turndown ratio of up to 1:100. Versatile yet powerful, FineTek's EPD30 is able to meet the	No
FLUENCE CORP	B2-P32		Sustainable Decentralized Water and Wastewater Treatment Solutions	Fluence decentralized water & wastewater treatment solutions, provide municipalities with smart packaged solutions close to the source. NIROBOX™ features modular desalination for seawater and brackish water. Aspiral™ product line features wastewater treat	No
GEORGE FISCHER	B2-H30		Track & Trace	GF Piping Systems' Track & Trace is the smart way to manage your assets at the job site.	No
HellermannTyton Pte Ltd	L1-K24		eKUBE Marking Machine	HellermannTyton's eKUBE embossing machine is a small, portable and fully automatic analogous metal embosser. The eKUBE has been designed to emboss Marine Grade Stainless Steel 316 markers for cable & pipes identifications in all areas where severe environment	Yes
HEXAGON PPM CO INTERGRAPH PROCESS POWER AND OFFSHORE PTE LTD	L1-Q13		Using CADWorx in Water Industry	CADWorx offers an extensive and unique range of tools and capabilities that makes designing multi-discipline water facilities fast, accurate and cost-effective. CADWorx Plant includes the most complete DWG file-based range of tools that enable the creatio	No
Hydrospin	L1-J10		micro-generator provide green energy 24/7 from the water flow	Hydrospin's generator produced micro-energy provides available DC electrical power to sensors, monitors, data loggers and more. <input type="checkbox"/> An unlimited green energy source means	No
INDUSTRIE DE NORA S.P.A	B2-Q02		Capital Controls® Ozone generator	- Unmatched experience since 1970 <input type="checkbox"/> - Trusted supplier to 1,300+ installations <input type="checkbox"/> - Expertise across a range of applications: drinking water, wastewater, water reuse, food and beverage, aquaculture, and remediation <input type="checkbox"/> - Ozone capacities up to 113 kg/hr (6,000	Yes
IXOM WATERCARE	B2-V05		MIEX® Magnetic Ion Exchange	Ixom Watercare is a leading global supplier of Ion Exchange treatment solutions. Our unique MIEX® pre-treatment processes have the ability to reduce the Dissolved Organic Carbon (DOC) from your water, resulting in a reduction in the formation of Disinfect	No

Kamstrup A/S	L1-L30		Smart Water Meter	flowIQ® 2101 is a smart water meter based on the latest ultrasonic technology. The meter has no moving parts and maintains its pinpoint accuracy throughout its entire lifetime of up to 16 years. Smart metering helps secure fair and correct billing, improv	Yes
Kyowakiden Industry Co.,Ltd.	B2-T01		G-ace	G-ace is a compact pressure floatation unit using ozone micro-bubbles for treatment of oil-containing wastewater.The unit lowers reduce industrial waste disposal costs by tens of thousands US dollars per year by reducing the amount of wastewater disposed	No
Linde Gas Singapore Pte. Ltd.	B2-M11		OZORA® Oxygen Recovery System	Linde developed OZORA Oxygen Recovery System that can reduce total ozone generator oxygen consumption by up to 60% which greatly lowers plant OPEX. Video on the operating principal can be found in the following link:□ <a href="https://www.youtube.com/watch?v=KMZb1">https://www.youtube.com/watch?v=KMZb1</a>	No
MING AQUA MACHINERY CO., LTD.	B2-R26		MAM FILTER	The new type of regenerative filter is widely used from the large swimming pool to small landscape pond. Anti-rusted coated metal barrel with a special design to achieve high-performance filtering effect and combined with energy saving	Yes
MOTT MACDONALD	B2-D01		MOATA	Our experts developed Moata — a cloud-based analytics and visualisation service — provides real-time insight into water asset performance to enable predictive maintenance and better decision making. It's about turning data into information, giving you con	No
Mycometer A/S	L1-L30		BQ-online	Mycometer provide rapid on-site and on-line analysis of total bacteria in water – The technology is US-EPA verified and in use worldwide. In 2018 the technology was awarded the EU Seal of Excellence	No

NETZSCH ASIA PACIFIC PTE LTD	B2-K32		FSIP® Progressing Cavity Pump	The FSIP® design enables a particularly service-friendly maintenance without disassembling of the pump from the pipeline. By easier access to all rotating parts through cartridge joint and mechanical seals the maintenance is reduced.	Yes
NSF KOREA LLC	B2-P14		New Standard Addresses Emergency Microbiological Reduction - NSF/ANSI 244	NSF International is publishing a new U.S. Standard NSF/ANSI 244 in mid-June. The purpose of the standard is to evaluate the ability of mechanical filtration technologies to reduce virus, bacteria and cysts in municipal water systems as supplemental treat	No
NSL OILCHEM WASTE MANAGEMENT	B2-P08		New wastewater treatment plant in Singapore	To support the growth of Singapore's high-value chemical industry sector, NSL OilChem Waste Management has constructed a new Industrial Wastewater Treatment Complex that is equipped with state-of-art laboratories and technologies to treat a wide spectrum	Yes
PIPELINE PROCESS AND SYSTEMS	B2-H36		FULL PROFILE INSERTION MAG METER	Insertion design of the FPI Mag allows for easy installation across a wide range of Municipal and Industrial applications & pipe sizes. <input type="checkbox"/> Hot Tap installation allows to insert the meter without interrupting service, de-watering lines, cutting pipe.	No
PROMEGA PTE LTD	B2-X06		Water-Glo™ System	The Water-Glo™ System uses bioluminescent technology to measure ATP from contaminating live microbes rapidly & easily, offering a highly sensitive measurement that enables you to act quickly to protect processes, human/environmental safety & water quality	Yes
PWNT Pte Ltd	L1-H28		CeraMac® C-19 and C-37 skid packages	PWNT presents its newly developed CeraMac® C-19 and C-37 skid packages, standalone solutions with : <input type="checkbox"/> <ul style="list-style-type: none"> <li>• No fibre breakage <input type="checkbox"/></li> <li>• Long life span &gt; 20 years <input type="checkbox"/></li> <li>• Possibility of using strong chemicals for membrane cleaning <input type="checkbox"/></li> <li>• Use of high backwash rates to restore</li> </ul>	Yes
REXO Engineering	B2-W11		Contactless Sludge Blanket Measurement System	Contactless sludge measurement technology, that was invented by REXO Engineering Inc and Korea Environment Corporation(KECO), has been applied to Contactless Sludge Blanket Measurement System. This is the new type of sensor prevents contamination problem	No
RICHPAK ENTERPRISE CO., LTD./ MANNIU JNP WATER TEC LTD	B2-R28		JNP Patent Lead- free multi- functional prefilterer	*100% lead free is your only choice! <input type="checkbox"/> *Made of food-grade plastic instead of copper <input type="checkbox"/> *Highly anti-freeze, anti-burst food-grade PC, and impact-resistant food-grade PP materials <input type="checkbox"/> *Patented drainage design <input type="checkbox"/> *Large capacity housing <input type="checkbox"/> *Dual scrapers <input type="checkbox"/>	Yes

rqmicro AG	L1-R10		CellStream instrument - for rapid & reliable pathogen detection	The CellStream combined with the rqmicro reagent kits and microfluidic cartridges provides a reliable solution for pathogen detection in water. The target cells (e.g. Legionella) can be detected in different samples in less than 2 hours by means of immuno	No
Seowon Technology Co.,Ltd	B2-W10		DRP-JOINT (Pipe & Fittings)	Since its establishment in 1987,We are producing various material-used pipe and joints such as stainless steel, copper, copper-nickel. We have been diligently working to revolutionize building and ship construction. We try our best to offer our customers	Yes
SIGA	L1-J10		SigaPlatform	innovative incipient failure detection for industrial control systems. SigaPlatform uses machine learning and predictive analytics algorithms to monitor electric signals (not digital packets) and to detect, in real time, process anomalies that may be a m	Yes
TIAN FENG WEI TECHNOLOGIES AND TRADING	B2-P07		Graphene sea water desalination equipment	Tian Fengwei Technologies & Trading Pte Ltd specializes in graphene desalination, PE, PPR, PVC, valves, pipes for water, gas, oil and various types of RO reverse osmosis seawater desalination series products, graphene lighting system products, urban rainw	Yes
TRITECH SYSENG (S) PTE LTD	B2-L29		TriTech Containerized iMBR Wastewater Treatment System	TriTech designed and built a containerized wastewater treatment system for Changi Airport T5 construction site, utilizing high duty equipment and instrumentation to fulfill the required configuration. It is a smart containerized low-energy wastewater trea	Yes
VECTOR BIOMED	B2-H26		Gas Endeavour - Low gas volume & flow measurements made easier	The Gas Endeavour allows users to measure low gas volume and flow whenever there is a demand for accurate and precise measurements. This smart analytical instrument can be used for both research and industrial applications.	Yes
VECTOR BIOMED	B2-H26		Luminultra Rapid Microbial Monitoring ATP Testing Solution	Portable solution for rapid microbiological monitoring in any water, wastewater or industrial fluid management application. Fast active microorganisms measurement through Adenosine Triphosphate molecule detection. Offers all traditional ATP tests benefits	Yes
VEGA INSTRUMENT (SEA) PTE LTD	B2-X16		VEGAPULS 64	The future is 80 GHz: a new generation of radar level sensors □ VEGAPULS 64 accurately detects the liquid level. With □ the smallest antenna of its kind and exceptional focusing, it delivers □ outstanding performance every time. □	Yes

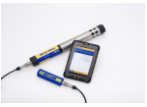

YOSHIZAWA LIME	B2-P26		Metal Clear®	Metal Clear® is one of products of Yoshizawa Lime Industry, Japan. It is used to improve quality of surface run-off, leachate and water recovered in the mining and excavation operations. In other words, Metal Clear® is a sustainable option to reduce life c	Yes
ZWEEC ANALYTICS	L1-S28		AquaTEC	AquaTEC is an intelligent bio-monitoring system that serves as a crucial first-line assessment of drinking water to provide timely interventions to safeguard water security. It performs 24/7, real-time, remote monitoring and has been operationalized into	No
LONGTECH MACHINERY INDUSTRY CO., LTD.	B2-Q37		ROOTS BLOWER	ROOTS TYPE BLOWER CAN SERVICE FOR WASTE WATER TREATMENT, PAPER& PULP INDUSTRY, FLOUR MILL, AQUACULTURE.... ETC. WE CAN REACH POSTIVE PRESSURE 1.0BAR AND VACUUM 0.5BAR AND 2-STAGE BLOWER TO FULFILL HIGH PRESSURE.	Yes
Source2Source Inc.	B2-W22		Stormwater Kidney™	Source2Source Inc. presents the Stormwater Kidney™ for producing safe non-potable water from surface water sources such as stormwater. Reduce pathogens, nutrients and other bioavailable contaminants from otherwise problematic waters for use in industrial	Yes
Omya	B2-H11		Omya Advanced Remineralization Process	This cost optimized, and modular desalination post-treatment process produces pristine turbidity free final water using Omyaqua® high purity micronized calcium carbonate to generate a concentrated calcium bi-carbonate solution within the patented	Yes
SINGNERGY CORPORATION PTE LTD	B2-G32		Singnergy Dryer	SINGNERGY presents ground breaking and revolutionary first in the world drying technology. The fully automated, compact, highly energy efficient dryer does NOT use any heating medium such as hot air, thermal oil or steam to turn food waste/sludge into bio	Yes
Servelec Technologies	B2-T30		Datective Flowsure	Datective FlowSure is an automated on-line computing system, based on Artificial Neural Networks and Fuzzy Logic technology, for the detection of anomalous events in water and sewerage networks; its software that helps to identify and predict network even	No
ABB	B2-N14		ABB Ability™ Smart Sensor for motors and Pumps	These solutions can make huge numbers of motors and pumps into smart devices, enabling motor users and pump experts to identify maintenance needs from a distance thereby increasing work safety, saving time and improving reliability of entire process	Yes

ABB	B2-N14		ABB Ability™ LV Switchgear – MNS® Digital	ABB's MNS® Digital incorporates intelligent devices with a data interface. Once connected to the ABB Ability™ platform, the dashboard provides you with real time data display, alarm and event display, trending and condition monitoring, making predictive m	Yes
ABB	B2-N14		Protection and control REX640	The newest member of ABB's Relion® protection and control family of relays, REX640 further reinforces Relion's position as the range of relays to rely on in protecting all your assets in advanced power generation and distribution applications easy.	Yes
IN SITU	B2-N12		Aqua TROLL 500	Introducing the Aqua TROLL® 500, a cost-effective multiprobe ideal for both spot checks and long-term monitoring. This wireless-enabled instrument streamlines data collection, saving hours in the field while delivering more reliable data.	No
SYMBIONA	L1-K14		AnoxyMem®	More biogas and very clean effluent after anaerobic treatment of high-strength wastewater and waste? Yes, if you have an AnoxyMem® Anaerobic Membrane Bioreactor. Designed for high COD and concentrated wastewater from industry (incl. stillage, whey, starch	
SYMBIONA	L1-K14		Rovapo® & Rovapo®-SWRO	ROVAPO® - for maximum water reuse and treatment of highly-polluted wastewater (eg. electroplating, high-tech industry, high salinity and COD up to 300.000 mg/l) with up to 98% recovery. ROVAPO®- SWRO – self-adapting systems for seawater preparation with	
BURKERT SINGAPORE PTE LTD	B2-Q08		Membrane Integrity Test	Burkert presents Membrane Integrity Test-Monitoring system for Reverse Osmosis and nanofiltration. To solve the task of regular monitoring of the membrane function with complete documentation, Bürkert automated the sampling and conductivity measuring pro	Yes
BURKERT SINGAPORE PTE LTD	B2-Q08		Online Anaysis System 8905	WATER QUALITY MONITORING – COMPREHENSIVE ANALYSIS IN SMALL SPACE 8905 Online Analysis System is a state-of-the-art, highly compact & modular system for monitoring all important water parameters on one platform for continuous measurement of high priority	Yes
ECOLAB PTE LTD	B2-Q32		Envirox	Envirox is unique and patented process provides safe chlorine dioxide generation with the use of a single precursor. The Envirox system was designed to be used in hospitals, commercial buildings, cruise ships and other and other commercial spaces	No
