

Seminar – Circular Industrial Parks (including networking lunch)

Interest for Circular Industrial Parks in Asia is rising. As we have worked in a linear way for over 150 years, there are almost no interconnected value chains in the production industries at the moment—besides sales. Today, industries are forced to look at a whole new way of value creation in the production process. In order to reach their full potential and provide circularity in the production industries, there is a need for new product concepts where materials are available for high-quality recycling across different industries. The foundation of circular industrial parks is to keep products, materials, and components at a high level of a value, and multiple life cycles.

Governments and industries from Singapore and ASEAN are invited to join at our embassy planned session on Wednesday, 11th July. The session focuses on the significant volume of waste flowing through the industrial environment. The aim is to highlight the opportunities to capture value, in the form energy, nutrients and materials embedded in these flows, through the application of circular economy principles.

With Guests of Honor Mayor Ahmed Aboutaleb, City of Rotterdam, and Ambassador of the Netherlands to Singapore, Her Excellency Margriet Vonno During this session, a contract will be signed between Urban Farming Partners and HSL Singapore for a feasibility study for an urban farm at HSL's premises. The mayor of Rotterdam, Mr Ahmed Aboutaleb, and CLC's chairman Mr Khoo Teng Chye will be witnessing the ceremony.

You will gain insights to Dutch Circular Industrial Park best practices and learn how Dutch technologies have contributed to convert waste streams into valuable resources for downstream companies. The three main waste streams covered will be wastewater, solid waste and biomass.

The Embassy of the Kingdom of the Netherlands organizes the session on Circular Industrial Parks at the SIWW on July 11 from 11.30 AM to 2.00 PM. Look for us at Level 4, Room 4403&4404 of Marina Bay Sands Expo and Convention Centre.
